## **GHS FY 2023 ANNUAL COMPLIANCE TEST**

### **HIPAA**

1. All client record access in CHIP is logged by date and time, user, client record, screen/form and type of activity (read, update, delete, etc.)  
  
a. True      b. False
2. Always protect your data from unauthorized view. This is particularly true if you are viewing EMR records on a laptop in a public place.  
  
a. True      b. False
3. It is a good idea to write your password down and keep it hidden away in case you forget it.  
  
a. True      b. False
4. Logging in to CHIP using someone else's User ID and password violates HIPAA regulations and GHS policy and is fraud.  
  
a. True      b. False
5. Many people have been fired because of HIPAA violations, especially hospital employees. The Department of Justice is increasing their efforts to arrest and convict based on HIPAA violations.  
  
a. True      b. False
